LinkedIn | Github

I'm a competent frontend developer with a strong foundation in building responsive and interactive interfaces using HTML, CSS, and JavaScript. My expertise extends to building dynamic web applications using React and Redux, demonstrating my ability to work with advanced JavaScript libraries and frameworks.

SKILLS

HTML | CSS | SCSS | JAVASCRIPT | TYPESCRIPT | GIT | REACT.JS | REDUX TOOLKIT | REST API
VITE | WORDPRESS | NATIVE POLISH | ENGLISH C1 | PHOTOSHOP | FIGMA

EXPERIENCE

Code Lovers - Web Developer | January 2023 - December 2023
Expertly translated designs into code (HTML, CSS, JavaScript), resolved interface issues across diverse projects and executed seamless server migrations.

Self-Directed Learning and Personal Projects | Since August 2021
I've dedicated significant time to self-directed learning and personal projects.

EDUCATION

Technical School of Economics No. 6 named after Nicolaus Copernicus in Kielce | 2013 - 2017
Marketing and advertising technician

PROJECTS

Memo - memory enhancing mini game
REACT | TYPESCRIPT | REDUX TOOLKIT | REDUX THUNK | REST API | REACT SPRING
Application built with React and Typescript that fetches data from external API to create a grid of images that the user needs to pair up in order to finish the game.

LangBe - german Vocabulary Learning Web Application
REACT | REACT SPRING | REDUX TOOLKIT | REST API | LARAVEL | MYSQL
React based application that connects to mySQL database using Laravel to fetch the words from the frequency list. State of the application is being managed by Redux and UI animations are made with React Spring library to limit the number of renders and optimize performance.
